BA 3rd Semester Exam., 2017

EDUCATION

[MED 12]

(Psychological Practical)

Full Marks : 45

Time : 2 hours

The figures in the margin indicate full marks for the questions

1. Answer the following questions : 15×3=45

(a) What are the three types of transfer of learning? How will you prove that speed and accuracy of the non-preferred hand will increase with the practice of the preferred hand? 5+10=15

Or

How will you like to measure the level of aspiration and the subsequent achievement of a person with the help of Rotter's Level of Aspiration Board? 15

(b) Distinguish between 'retroactive inhibition' and 'proactive inhibition'. Demonstrate the experiment of retroactive inhibition and its effect of similarity between original and interpolated learning tasks. 6+9=15

Or

Demonstrate the phenomenon of proactive inhibition i.e., old learning interferes with recalling of new learning. 15

(c) Describe the functioning of the different parts of the brain by drawing its diagram. 10+5=15

Or

Draw a diagram of the ear and explain the functioning of each part of the ear. 5+10=15
