COURSE INTRODUCTION

This is the second course in Education for the second semester of two year Master Degree Level. The course consists of two blocks. This course primarily will deal with the basic concepts of measurement and evaluation in education. As we know that measurement and evaluation are integral parts of total education system, this course will introduce you with the major components of measurement and evaluation in the fields of education. The first section of the course will help you to know the different measurement and evaluation process and procedures. The second section of this course will introduce you with various test that can be done and administered on individual man or group of people. After going through this course, you will have a clear picture of measurement and evaluation and how they are applicable in the educational process.

BLOCK INTRODUCTION

This is the second block of this course. It comprises of total seven units of the course. The **ninth Unit-"*Intelligence test and its measurement"*** explains how to measure and construct intelligence test. It also discusses different types of intelligence test. The **tenth unit-"*Measurement of Aptitude*"** is the discussion of basic concept and measurement of individual's aptitude**.** The **eleventh unit**- "***Measurement of Attitude"*** deals with the meaning, nature, classification and measurement of individual's attitude. The **twelve unit** "***Measurement of Interest"*** explains the measurement of interest along with the basic concept and nature of interest. The **thirteen unit "*Measurement of Personality"*** being a very important topic of discussion deals with the different measurement techniques of human personality**.** The **fourteen unit "*Measurement of Creativity*"** explains about meaning, nature of creativity, different criteria of creative personality as well as measurement of creative thinking for different levels of students. The **fifteen** and **last unit** of this block "***Emerging Trend in Evaluation*"** is the explanation of different new trends in the field of evaluation like- Question bank, Grading system, Semester system in education.

While going through this block, you will come across some boxes in the middle of the text. These boxes will explain you more about some important points and concept within the text. Apart from this, there will be some broad and short questions which have been included under **"ACTIVITY"** and "**CHECK YOUR PROGRESS"** in every unit. Activities will increase

your thinking and reasoning capacity as questions put in **ACTIVITY** are not directly derived from text. Hints on the answer to the short questions have been put under section **"ANSWER TO CHECK YOUR PROGRESS"** .Besides, a few text-related questions have been out in **"POSSIBLE QUESTIONS/ MODEL QUESTIONS".** These questions will help to draw your attention on the probable topics for the examinations so that you can prepare for the examination with confidence and determination.

The Block is divided into seven units:

Unit 9: Intelligence Test and Its Measurement

Unit 10: Measurement of Aptitude

Unit 11: Measurement of Attitude

Unit 12: Measurement of Interest

Unit 13: Measurement of Personality

Unit 14: Measurement of Creativity

Unit 15: Emerging Trends In Evaluation

CONTENTS

		Page No:
UNIT 9:	**Intelligence Test And Its Measurement** Meaning and definitions of intelligence, Brief overview of the theories of intelligence, Measurement of intelligence, Types of intelligence tests, Uses of intelligence tests, Construction of an intelligence test.	**183-204**
UNIT 10:	**Measurement of Aptitude** Meaning of aptitude, Definitions of aptitude, Nature / characteristics of aptitudes, Measurement of aptitude, Meaning of aptitude test, Types of aptitude tests, Multiple aptitude tests, General aptitude test battery (**GATB**), Differential aptitude tests (DAT), Test of primary mental ability (PMA), Measures of specific aptitudes, Mechanical aptitude test, Tests of clerical aptitude, Musical and artistic abilities, Measuring aptitude for art, Tests of scholastic and professional aptitudes, Importance of aptitude test.	**205-232**
UNIT 11:	**Measurement of Attitude** Meaning of attitude, Definitions of attitude, Nature or characteristics of attitude, Importance of attitude testing, Measurement of attitude, Types of attitude test, Attitude scales, Thurstone's scale , Likert type scale, Semantic differential scale, Guttman scales, Master scale method of Remmers and Silance, rating scales, Rank order scales, Percentage of population scales, indirect scales, Projective techniques.	**233-257**
UNIT 12:	**Measurement of Interest** Meaning of interest, Definitions of interest, Types of interest, Nature of interest, Measurement of interests, Techniques of measuring interest, Formal assessment techniques: Interest inventories, Strong vocational interest blank (**SVIB**), Kuder preference record (KPR), Thurston's vocational interest schedule, Informal assessment techniques, Importance of interest testing.	**258-278**
UNIT 13:	**Measurement of Personality** Methods of assessing personality, Subjective methods, Objective methods, Projective methods.	**279-302**

UNIT 14: Measurement of Creativity **303-321**

Meaning of creativity, Criteria of creative personality, Measurement of creative thinking, Measurement of creative thinking for different levels of students.

UNIT 15: Emerging Trends In Evaluation **322-348**

Concept of question bank, Purposes of question bank, Construction of question bank, Uses of question bank, Concept of grading system, Methods of grading system, Advantages and disadvantages of grading system, Concept of semester system, Components of the semester system, Advantages and disadvantages of semester system, Use of computer in evaluation.
